I. Problems of Present World

- 1. War and Conflicts in Many Parts of World.**
- 2. Poverty.**
- 3. Destruction of Environment.**

As far as war is concerned, what is the most responsible country in the world. We think that the worst evil in the politics of world is to invade or bomb other countries without the approval of the United Nations.

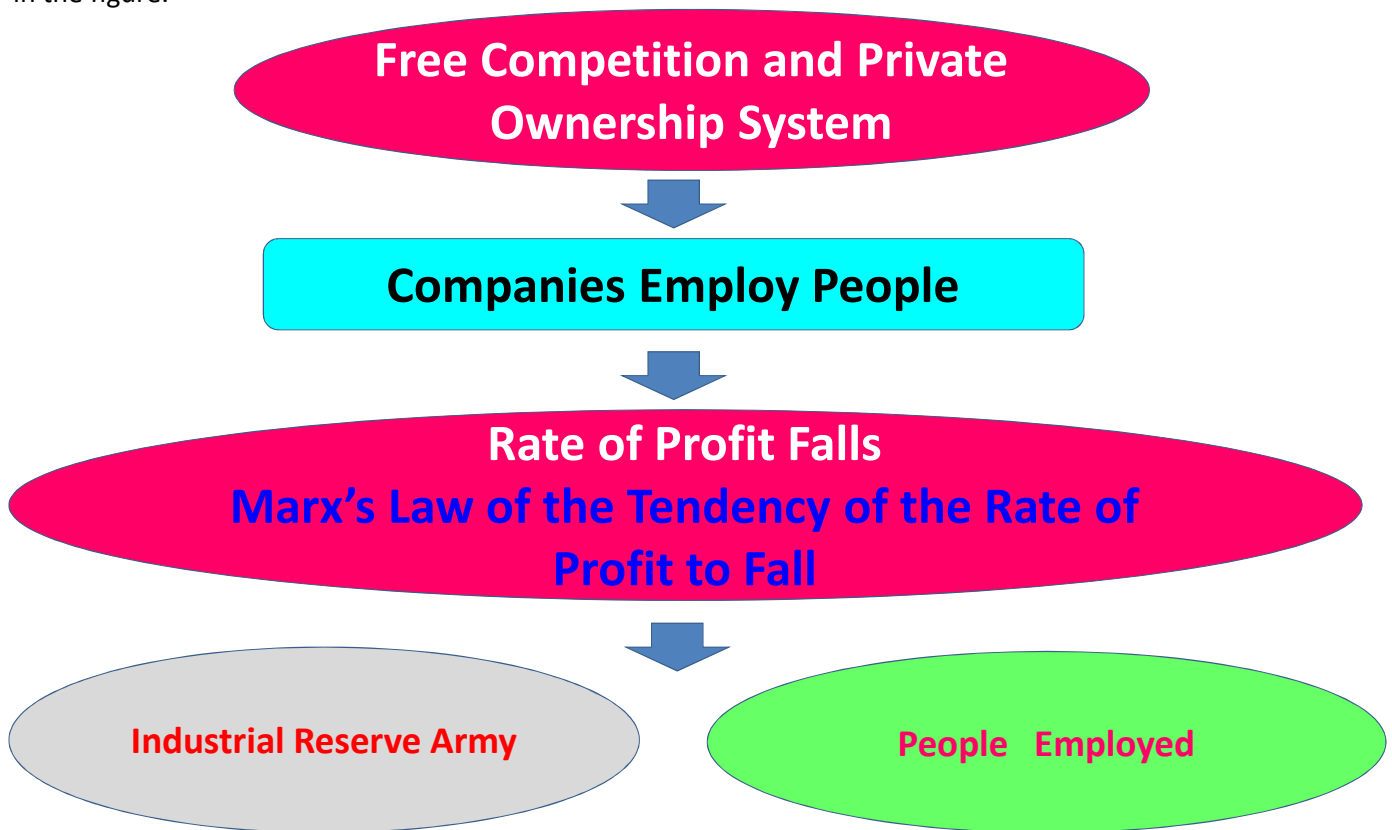

SSSS

For example, **Countries Such as USA, UK, France, etc.** invasions, and the regime of Saddam Hussein. If the most powerful country in the world respects the United Nations, other countries cannot ignore it. So we need the authority stronger than the United Nations. Namely we need the World Parliament whose members are directly elected by people.

Invaded Iraq and Libya without Approval of United Nations and Destroyed Regime.

People Lost the Leaders and Islamic State Was Born.

The problem of poverty is also important. Why does not the poverty disappear in the world with high technology? In a word, poor people are poor because they cannot get a job. The World Federation can provide jobs. It is shown in the figure.

For example, companies in Japan construct factories in Thailand. This is because the wage is low in Thailand. If Thai people are employed, their wage is lower than that of Japanese employees. But the income of employed people is higher than people who are not employed. If we want to employ all the workers, we must make investment to enlarge company or found a new company. But profit is not sufficient for that policy. So, there emerge people who are not employed. They are called the Industrial Reserve Army in Marxian Economics. This phenomenon occurs in the economy of free competition and private ownership. So we can provide jobs by running companies in the red. But, if companies are run in the red, the company loses the international competitive power. But, if many countries are in the World Federation, companies in the countries in the World Federation can run factory in the red and provide jobs.

III. Gist of World Party Declaration

The gist is shown in the following pages. The Declaration was adopted in the World Party Convention.

IV. We Need Love in the World

What is the fundamental cause of war? In a word, it is the lack of love. As written above, Islamic State was born after the death of leaders Saddam Hussein of Iraq and Muammar Gaddafi of Libya. They were attacked without the approval of United Nations. This policy was based on the imperialism of USA. Namely, USA wants to rule the world without respecting the United Nations.

So we need love in the world politics. How can we establish the politics with love in the world politics? First of all, we must recognize that no matter how the science develops, we must get old and die and there are woman and man in this world. So, if we want to be happy, we must build a healthy woman-man relation and have a healthy family relation. If we have this mind, we can have love in the world politics.

V. The Truly Good Thing Shall Become a Common Sense

It seems that there are two classes in this world. One class rules another class. For example, In USA, it is said that people whose income is top one percent get 20 % of income of country as a whole. As a result, there is a result of survey that only 8 people owns assets that are same as all the assets of the poorest 50% of all the people in the world. Thus if this world is in the system of free competition and private ownership, assets are owned very unequally. So we need a thought that makes the world better. Namely, we need the concept of World Citizen. Basically, we should understand a philosophy that the truly good thing shall become a common sense. If we say something against a common sense we are laughed at. For example, we are laughed at if we say that we should use kerosene lamp instead of electric light, we are laughed at if we say that we should ride cow or horse instead of motorcycle and car, we are laughed at if we say that Olympic Games and World Cup of Soccer should be abolished, we are laughed at if we say that the compulsory education should be abolished, etc. Thus the truly good thing shall become a common sense. So, the thought of World Citizen and the World Federation shall become a common sense in the future.

Gist of World Party Declaration

Declaration of International Party to Establish the World Federation

Benefits of World Federation

1. World Federation can reduce or prevent the war. This will lead to the reduction in death and wound of people by war, in the destruction by war, and in the military expenditure.
2. World Federation can issue the international common currency. This will lead to the removal of fluctuation of exchange rate.
3. World Federation can provide employment to all the people. This will lead to the eradication of poverty.

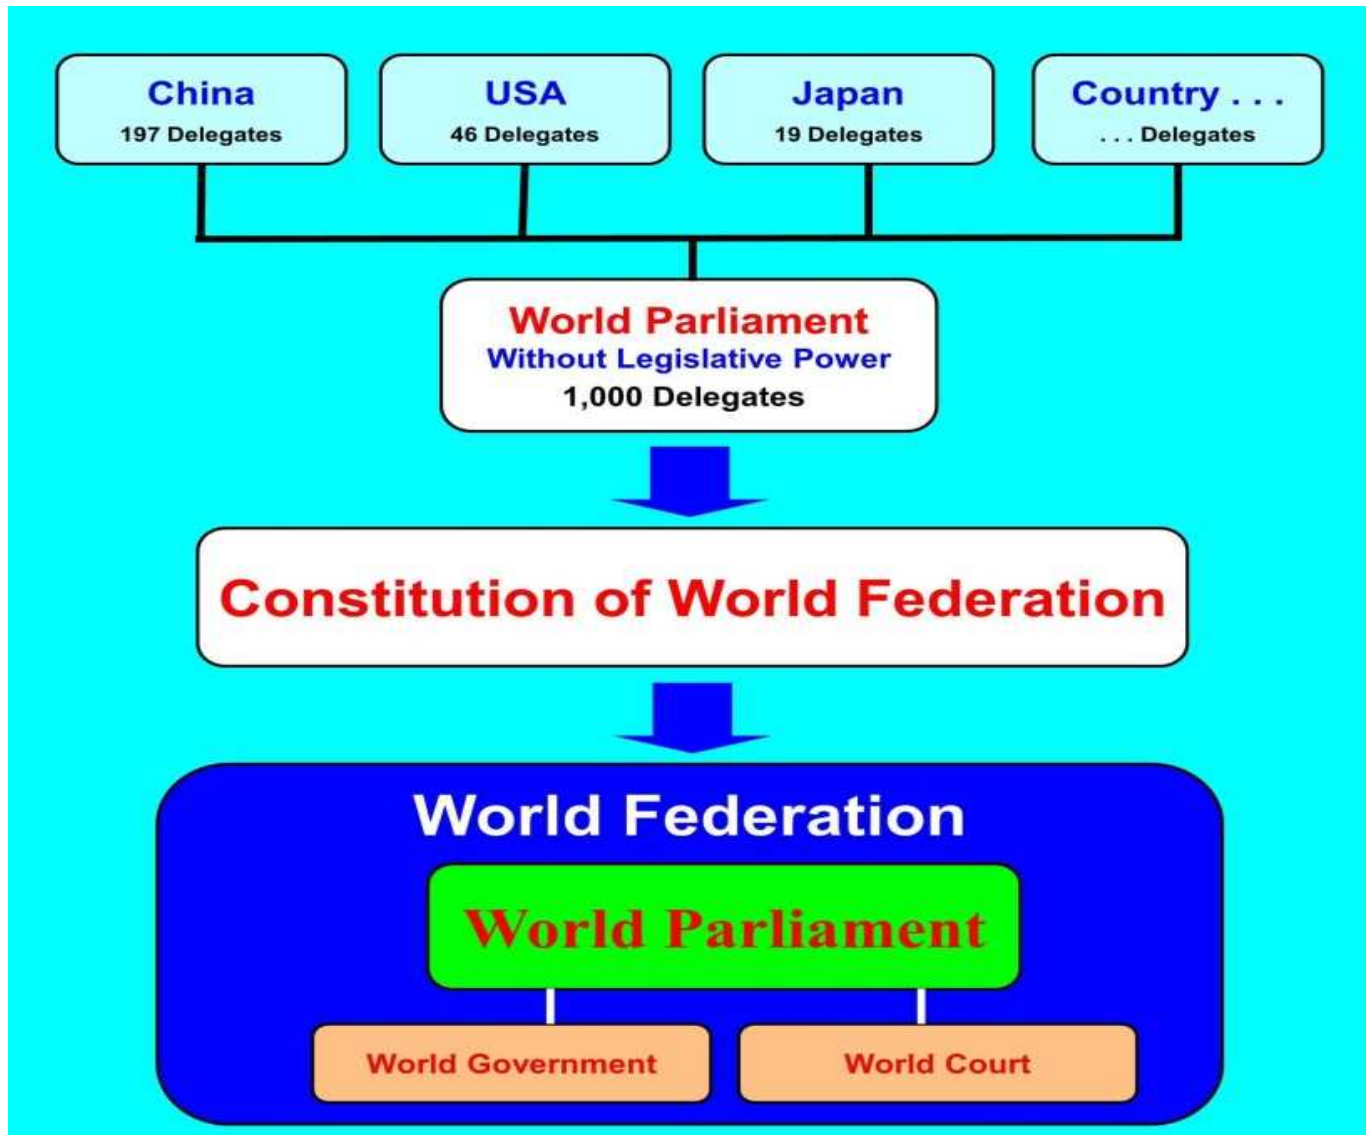

World Federation is Established as the Figure in Next Page

The World Parliament is composed of 1,000 members from each country. Delegates are sent from each country to the World Parliament in proportion to population. Even if only 2 countries send the delegates, it can form a part of the World Parliament and other countries can join later. Like this, a part of the World Parliament can develop to the whole World Parliament.

The World Parliaments on the early stage is a consultative assembly without the legislative power. If the World Parliament functions well, the legislative power is vested with by the attending countries, and the World Parliament establishes the Constitution of World Federation. In the World Federation, the system is not the division of three powers, the legislation, the administration, and the judicature. The World Parliament is the supreme authority of the World Federation. The World Parliament elects the Prime Minister of the World Government and the judges of the World Court.

Important feature of the World Parliament is that each country may register delegates up to 3 times as may as the seats and the registered delegates (Hereafter, registered member) may object to the membership of other registered members. If the objections reach 5% of the total votes of registered members, the motion to remove the member is made at the World Parliament. If the attending delegates with more than 50% of total votes of the attending delegates object to the motion, the objected registered member is not removed. Therefore, if the motion is not rejected, the objected member is removed even if the objections are only 5% of the total votes of the registered members. For example, even if 3,000 delegates are registered, registered members may be reduced to 10 due to objection. Even so, the 10 members will become the definite authority and get the support of people. So, the World Parliament will be the supreme authority in the World Federation.

World Party was founded aiming to be the party existing 1,000 years later.

Three Principles of World Party

1. The first priority is the benefits of world as a whole or the benefits of society as a whole. Benefits of party come after that. If the world becomes better, our country will become better. If our country becomes better, our life will become better.
2. There must not be lie with regard to the policy of World Party.
3. There must not be corruption in the World Party. We must be strict with regard to fund.
