Why World Party is the best world unification solution

**Presented by: Kongjak Jaidee
(World Party Thailand)**

What is world unification?

It's the work to make the world become like having only one country.

- No borders (No immigration controls)
- No wars (No national armies)

Benefits of World Unification

- All human beings can travel around the world freely; save lots of time and resources with immigration controls
- No war victims; save lots of military budgets
 - * Military cost: \$1981 billion in 2020
 - * War victims include all of us
- Good world unification plans must get global acceptance peacefully, and be able to keep good things while eliminate bad things.

World Unification is absolutely possible.

Because all lands and all humans on earth are the same. Countries are just arbitrarily divided.

World Unification can help war victims

and can solve these problems.

School fights

Climate change

Assassinations

Garbage and Pollution

Poverty

Terrorism

It will be much easier for us to visit beauty of our earth.

The ideal world we should reach

**Not the world where everyone is rich (impossible!),
but everyone lives peacefully and happily.**

Why World Party is the best world unification approach

- 1) It is compatible with current systems in most countries. So, this approach should be globally accepted as an efficient way to keep good things and eliminate bad things in our world.
- 2) The unification will happen gradually; thus allowing people to adjust, and minimizing any possible losses of any human beings.
- 3) We are headed by a generous and sincere leader (President Toshio Suzuki) , who would lead our work toward benefits of the entire humanity, not himself, our members, or any companies.
- 4) We already have capable members in various regions of the world (and will have more) who can make world federation laws comply with existing laws/rules of any societies.
- 5) With great benefits of world federation goal, to enable border-less travelling and military-less world, our party's branches are much likely to win national elections soon.
